

Bicycle Therapeutics to Present at the Jefferies 2019 London Healthcare Conference

November 14, 2019

CAMBRIDGE, England & BOSTON--(BUSINESS WIRE)--Nov. 14, 2019-- [Bicycle Therapeutics plc](#) (NASDAQ: BCYC), a clinical-stage biotechnology company pioneering a new and differentiated class of therapeutics based on its proprietary bicyclic peptide (*Bicycle*®) technology, today announced that management will present at the Jefferies 2019 London Healthcare Conference on Wednesday, November 20, 2019 at 2:40 p.m. GMT (9:40 a.m. ET) in London, England.

A live webcast of the presentation can be accessed in the Investors & Media section of Bicycle's website at www.bicycletherapeutics.com. An archived replay of the webcast will be available for 90 days following the presentation date.

About Bicycle Therapeutics

Bicycle Therapeutics (NASDAQ: BCYC) is a clinical-stage biopharmaceutical company developing a novel class of medicines, referred to as *Bicycles*®, for diseases that are underserved by existing therapeutics. *Bicycles* are fully synthetic short peptides constrained with small molecule scaffolds to form two loops that stabilize their structural geometry. This constraint facilitates target binding with high affinity and selectivity, making *Bicycles* attractive candidates for drug development. Bicycle's lead product candidate, BT1718, a *Bicycle* Toxin Conjugate (BTC) that targets MT1-MMP, is being investigated in an ongoing Phase I/IIa clinical trial in collaboration with the Centre for Drug Development of Cancer Research UK. Bicycle is also evaluating BT5528, a second-generation BTC targeting EphA2, in a Company-sponsored Phase I/II study. Bicycle is headquartered in Cambridge, UK with many key functions and members of its leadership team located in Lexington, MA. For more information, visit bicycletherapeutics.com.
