

Bicycle Therapeutics to Present at Cowen and Company 38th Annual Health Care Conference

March 6, 2018

CAMBRIDGE, U.K., and BOSTON, Mass., March 6, 2018 – Bicycle Therapeutics, a biotechnology company pioneering a new class of therapeutics based on its proprietary bicyclic peptide (*Bicycle*®) product platform, announced today that Kevin Lee, Ph.D., Bicycle's Chief Executive Officer, will present a company overview at the Cowen and Company 38th Annual Health Care Conference in Boston, Mass. The presentation will take place at 4:30 p.m. on Tuesday, March 13, 2018 at The Boston Marriott Copley Place.

ABOUT BICYCLE THERAPEUTICS

Bicycle Therapeutics is developing a unique class of chemically synthesized medicines based on its proprietary bicyclic peptide (*Bicycle*®) product platform to address therapeutic needs unreachable with existing treatment modalities. Bicycle's internal focus is in oncology, where the company is developing targeted cytotoxics (*Bicycle* Toxin Conjugates), targeted innate immune activators and T-cell modulators for cancers of high unmet medical need. Bicycles' small size and exquisite targeting delivers rapid tumour penetration and retention while clearance rates and routes of elimination can be tuned to minimise exposure of healthy tissue and bystander toxicities. The company's lead program, BT1718, is being evaluated in a Phase I/IIa trial in collaboration with Cancer Research, UK. The company's unique intellectual property is based on the work initiated at the MRC Laboratory of Molecular Biology in Cambridge, U.K., by the scientific founders of the company, Sir Gregory Winter and Professor Christian Heinis. Bicycle has its headquarters in Cambridge, U.K., with many key functions and members of its leadership team located in the biotech hub of Boston, Mass.
